

# ProRen™ Bladder Management System

Omni's patented non-invasive, sensor-driven Prosthetic Renal (ProRen) technology actively pulls urine away from the body, keeping the user dry, providing advanced incontinence and wound care management

- Reduces hospitalization costs associated with adverse events
- Decreases skin macerations and decubitus ulcers
- Reduces the risk of urinary tract infections
- Promotes healing of existing adverse events
- Non-invasive

## ProRen™ System Control

The reusable System Control Unit automatically activates, when sensors in the CUP or FLO collection Unit detect urine, and pumps the urine away from the skin, keeping user dry.

## ProRen FLO™ Option MFG Part: SCU-RBP-VA

**Hydro-Block FLO Condom Style**  
For active patients or those that need to intermittent cath providing 24 hour protection without removing FLO Cath.

## Collection Chamber Unit

The dual chambered collection system reduces skin contact and irritation. The proprietary leak-proof hydro-block air filter keeps patients dry and eliminates odor.

The Collection Chamber is available in Waist, Leg, and Bedside models for patient's and caregiver's convenience.

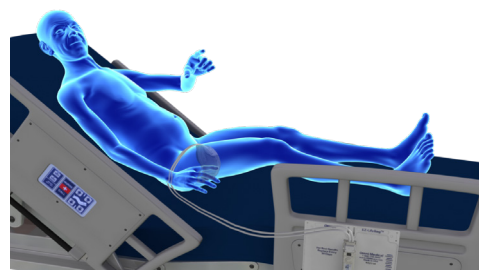

## ProRen CUP™ Option MFG Part: SCU-RBP-B

**No Adhesives, No skin contact**  
For patients with sensitive skin or need woundcare for existig complications.

\*cup is shown over required harness for demonstrative purposes only

The Cup can be worn sitting, standing, walking, and semi-reclined.

# ProRen<sup>TM</sup> Prosthetic Renal Management System

## ProRen Bladder Management System

- Automatically senses the presence of moisture and activates the system
- Flow rate 1.3LPM +/- .2LPM
- Attaches to Collection Bag for fully-automatic odor free use
- Weight : 4.8 oz
- Approximate size: smaller than a cell phone
- Reusable with proper cleaning

**Covered by VA Benefits for permanent Incontinence, ALS, MS, SCI , TBI and Post Prostatectomy**

### ProRen CUP<sup>TM</sup> Control Starter Kit MFG Part: CSK - 1 - CUP

#### CSK Kit Contains

- 1- Control Unit (urinary pump)
- 2- Rechargeable Battery Packs
- 1- Battery Charger
- 1- Power Adapter
- 1- User Manual and DVD
- 1- System Collection Units (CUP)
- 1- Collection Chamber Unit
- 1- Harness

### ProRen FLO<sup>TM</sup> Control Starter Kit MFG Part: CSK - 1 - FLO

#### CSK Kit Contains

- 1- Control Unit (urinary pump)
- 2- Rechargeable Battery Packs
- 1- Battery Charger
- 1- Power Adapter
- 1- User Manual and DVD
- 5- System Collection Units (FLO)
- 1- Collection Chamber Unit
- 1- System Chamber Unit
