

HOW TO ORDER OMNI'S BLADDER MANAGEMENT SYSTEM

Typically, to put a patient on the System (either the CUP or FLO) you would submit a **Prosthetic Consult**. Pasted below are boxes that you can "Cut & Paste" from and drop into your ordering {CPRS System} for ease of ordering. The top two boxes are for the "Starter Kit" (ordered through the **Prosthetics Department**) and the bottom two boxes are for the "Supply Kits" (typically ordered through the **Pharmacy Department**).

A majority of our VAMC's will have the Prosthetics Department order the Starter Kit (CSK) and then when ready, the first supply kit (CSK-B), then the Pharmacy Department will then take over the process of ordering the remaining supply kits (CSK-B). This will of course depend on your VAMC and what protocols and polices it follows. This is merely a guideline to assist you in how a majority of our VAMC's order the product.

Copy and paste template to reduce consult entry time for often ordered Omni's Bladder Management Systems and/or supplies.

When completing a consult copy and paste one of the following into the "other" box at the bottom of the consult (use "CTRL V" to paste into CPRS system).

Copy and paste all of the following into the consult when ordering
